LETS do it!

Learn, Evaluate & Teach System (LETS) is a learning management system based on world famous Moodle platform. It helps educators create online learning material with a focus on interaction and collaborative learning. It enhances existing classroom based teaching by providing 24/7 access to learning material, lectures, assignments and exams. You can customise the system based on your institution policies and guidelines to match your needs.

Top 10 reasons to subscribe!

1. Want to organise all learning material in your campus?
2. Want to track student learning?
3. Want to provide them access to lecture notes?
4. Want to provide them test and practice questions?
5. Want to manage all of their assignments online?
6. Want to provide reference material such as books and videos?
7. Want to interact with their parents for their progress?
8. Want to facilitate your students better than other institutions?
9. Want to facilitate better learning for your weak students?
10. Want to reach students who can't reach your campus?
